

Strategy Game-athon

Information Sheet for grades 6-8

What?

A late summer game playing extravaganza. But these are no ordinary games! Strategy games are designed to make players think in deep, complex and novel ways. Sequencing events, planning ahead, problem solving, all in an ever-changing environment challenge students to think outside the box. A wide variety of strategy games will be played. Group, team, and pairs games will all be introduced. Students will learn new games every day and also have time to play their favorites. No prior knowledge is required as members of the high school Strategy Games Club will be on hand to work with game-players as coaches and mentors.

Where?

The camp will be held in the Sonderegger Science Center on the Edgewood College Campus. The science center is a K-16 building that serves science students of all ages in the Edgewood community.

When?

August 3 – August 7, 2009, 9:00 am – 12 :00 noon daily
A snack will be provided.

Who?

The teacher will be Jonathan Hessler , physics teacher at Edgewood High School and the faculty advisor for the Strategy Games Club. Members of the Strategy Games Club will also be there to assist and coach.

How?

Fill out the registration form and return it to the address below. Registration will be first come, first served. The limit for the camp is 18 students. The registration deadline is July 25, 2009.

How Much?

\$125 for the week-long camp
